

KlassApp quick start

Mark attendance and enter marks for your class.

FOR TEACHERS

1 Log in

Open app.klassapp.xyz on your phone or computer. Your school office sends you a link by email when they invite you — it works for 72 hours.

2 Mark attendance

Menu, then **Attendance**. Everyone starts as present. Tap a name to change it to **Absent** or **Late**, then save. Parents of absent students get a WhatsApp message.

3 Enter marks

Menu, then **Exams & Marks**. Choose the exam, your class and subject, then enter each student's marks.

4 See your students

Menu, then **Students**. Check names, attendance and marks for your class.

5 Missing marks

The headteacher's **Report Cards** page shows a **Missing Marks Report** — check it before results are published.

6 Need help?

Ask your school office first. The full guide is at Menu, then **Help & Docs**.

Remember

Save attendance before you leave the page. Saved attendance is what parents see.

WhatsApp

Your school's KlassApp number is on the school noticeboard. Teachers can send how-to texts, like the ones in the full guide.
